How our rates work

Every price in this guide is the full SkyPostal price for one parcel, from the moment it reaches our Miami hub until it's delivered to your buyer.

What every rate includes

- Reception at our Miami hub
- Parcel prep
- Transport to the destination country
- Customs clearance
- Final delivery (2 attempts)
- Online tracking with delivery confirmation

Find your price in three steps

1. **Weigh your parcel** in kilograms or pounds.
2. **Go to your buyer's country** in this guide.
3. **Find the first weight** that is equal to or more than your parcel's weight. That's your price.

Parcels over 10 kg (22 lb)

Start with the 10 kg price. Then add the "each additional 500 g" price for every 500 g, or part of 500 g, over 10 kg.

Example: an 11.2 kg parcel to Colombia is 1.2 kg over, which is 3 steps of 500 g.
$70.05 + 3 × $5.76 = **$87.33**

Good to know

- Getting your parcels to our Miami hub is a separate cost.
- Import duties and taxes in the destination country are not included.
- Brazil has three service options. Ecuador has an extra customs charge for some parcels. See their pages.
- Some items can't be shipped. Check our Restricted Items list before you ship.
